Financial Situation Is Nearly Normal

[By Associated Press.]

NEW YORK, Oct. 30.—The financial situation today was so nearly normal that there were few new features of importance. It was stated by bankers that calls for money from the neighborhood of New York and the entire East appeared to be practically satisfied, as such calls for currency of an urgent character as were being received came from points west of the Mississippi. These calls are being met as fast as conditions permit. Mr. Williams, the new State superintendent of banks, gathered up most of the coin in suspended banks today and deposited it with going institutions, thereby adding several millions of dollars to the funds available in the market. The debit balance against banks at the clearing house was smaller than usual and the normal condition of all such balances aggregating only a little over \$9,000,000 on clearings of \$26,000,000.

RAMSEY SHOWING RICHER AND BETTER

Put Ramsey down for a high grade camp. The mine owners and prospectors are finding it in numbers of places and all the older properties are getting better constantly. With every day's work the district is showing for the richer and better, and late discoveries have still further proven this mineral zone one of surface richness.

Of course there is no intention to convey the meaning that there are no mining ores here. Enough development has already been done in the district to indicate the source of billion production in the distant future. Take the Ramsey Comstock mine alone for instance. At that property mountainous dumps of ore are piled up that represent a large tonnage and the extraction of the milling grade ores has already commenced. They have a lot of ore raised to surface that will plate from \$15 to \$25 per ton. The Walkover is also producing a lot of milling ore along with the high grade.

But the impression may have gone forth that this district does not enjoy the advantage of having ore that would pay well to ship. If such is the case there could be nothing further from the real facts. Shipments of high grade ore is an established condition, with absolute assurance that the monthly tonnage will be increased right along, and the increase is going to come from several properties operating on ledges each independent and separate from the other.

A visiting mining man cannot help being well impressed with Ramsey district right now. He will see gold in many places if he takes the trouble to investigate, and he will see mines being developed at depth sufficient to guarantee permanency and long continued production. Some very wide veins of shipping ore are exposed in the various properties and each week's development is bringing to light additional tonnage.

The district is in position now to invite the most exacting scrutiny by mining men. No fair minded man can fail to see the genuine merit of the mineral zone and the chance of its becoming as great or greater than any of the new Nevada camps, no place excepted. There is certain to be one of the most productive mining districts developed here that lies within the State. This great system of silicified dikes means a rich mineral belt and daily discoveries are proving it to be such.

A gradual and steady increase in mining activity is noted here. Every week sees some new property getting under development and a little more activity on the older properties. The district and the town are steadily growing and improving because the mineral wealth is here. No better indication of the true merit of the camp could be had than that. From now on Ramsey district is going to forge ahead and command attention whether the banks bust or Wall street squeezes the money a little tighter or not. The all-powerful magnet, gold, is getting stronger every minute here and it is sure to have the effect of drawing men to it. There is a mighty good starter for a big, bustling mining center right in this north end of Lyon county. Watch it and see.—Ramsey Recorder.

MASCULINE DIPLOMACY

"You promised to love, honor and obey," said the husband.
"Well, I don't love, I can't honor, and I won't obey," was the response.
"You go at once and buy that new hat," he rejoined, thus at one stroke demolishing all her theories.—Philadelphia Ledger.

FILLED SPACE, ANYWAY.

George—Did Miss Vance fill the hall?
Amy—No; she filled the lobby. Everybody beat it out there!—New York Telegram.

LOOK AROUND YOUR OFFICE

For ledgers, daybooks, in fact for anything that may be lacking in your office, go to the Bonanza Bindery. We have samples of the style of work which is turned out, but for the matter of that one does not have to visit the bindery. There are samples of our work in nearly all the offices in the city.

Our work stands as the best recommendation of the character of the stuff that we turn out. We can do anything in our line that can be done in any of the big cities, can do it as well, and give better service in the matter of prompt delivery than any other institution of the kind in the State.

Give us a trial. We will do the rest.

KEANE WONDER MILL

New Machinery Is Giving Entire Satisfaction

Homer Wilson, general manager of the Keane Wonder Mining company, and R. M. Rogers of New York, vice-president of the company, accompanied by their wives, came from the property Wednesday night and left Thursday for Goldfield on account of the reported bank failure there.

The new mill had just started when they left, and Mr. Wilson says to all appearances it is going to give entire satisfaction. The aerial tramway had also been started, and it likewise was working like a charm. Mr. Wilson says that he does not anticipate any trouble whatever in the operation of the plant. The plant consists of twenty 1,000-pound stamps, with amalgamation, concentration and cyanide of potassium. The ore is crushed to a forty-mesh, and according to the tests made before deciding upon a process, a saving of 94 to 96 per cent was effected by the one adopted. Over forty different methods were tried out.

The tram, which Mr. Wilson says is one of the finest in the country, has one unique feature, claimed to be the only thing of its kind in the world. The excess of power developed by the down pull of the ore buckets is used to run the rock breaker, and no brake to control the machinery is required. The plan works to perfection.

It is expected to have the plant running to its full capacity within the next few days.—Bullfrog Miner.

HUNDRED MEN THROWN OUT.

TACOMA, Oct. 30.—Orders were posted this morning on the grounds of the Dupont Powder works, south of Tacoma, that all men would be laid off, indicating a suspension of the huge corporation. The concern has under way the building of a large powder plant here. About one hundred men are affected. No reason is given for the action.

ELEVEN KILLED.

BUDAPEST, Oct. 30.—During a church festival in the village of Czarnova yesterday a conflict arose between factions in the congregation which led to the intervention of the gendarmes. A free fight ensued between the peasants and the gendarmes, in which eleven persons were killed and a score wounded.

BIG PURCHASE OF SILVER.

WASHINGTON, Oct. 30.—The Treasury Department today purchased 200,000 ounces of silver at 60.041 cents per fine ounce, to be delivered at New Orleans, and 100,000 ounces in San Francisco.

NO OBJECTION

Carrie—You saw father, Arnold?
Arnold—Yes, it's all settled.
Carrie—He gave his consent?
Arnold—Yes, he said that a girl that was out driving and napping and bicycling as much as you don't need much of a home anyway.—Philadelphia Telegraph.

HAS ANANIAS ON THE RUN

A MAN NAMED MILLARD DOES SOME TALL LYING IN MASSACHUSETTS

A disciple of Ananias, who gave his name to the tenderfoot reporter of the Worcester, Massachusetts, Chronicle, as G. I. Millard, handed out to the staid people of that proper Eastern town about as hot an article of the genuine bull con as it has been the fortune of the writer to have seen anywhere this side of the Funeral range. The interview is all about Goldfield and winds up with an account of the trip of the Goldfield boosters to Carson last winter to persuade the legislature to change the county seat of Esmeralda to Hawthorne. Hear him drool:

"We called ourselves the Goldfield boosters. We left town 125 strong and made our way to Carson City, the capital of the state. That trip cost us \$2,700 one way. The question of the county seat was argued a whole day, and we finally won out."

"We were banqueted by the politicians of Carson City. That night we made the town run with champagne. Nothing but the best would suit us. Never in the memory of the oldest inhabitant had the old burg woke up like it was that night. We coursed the streets and finally shot up the town."

"From Carson City we were invited to visit the Elks' superb home at Reno. There we were entertained like princes. The whole city received us with open arms. We woke the town up in royal style. We had two banquets. There was not a drop of coffee to be seen, nothing but champagne, wine and booze."

"Now to the anecdote of throwing money. It was in Reno. We were the cynosure of all eyes. The city toasted us at an informal spread. About us were gathered a swarm of children, including newsmen and street gamins of every degree of filthiness. Some of us boosters started a cry of 'throw 'em the coin.'"

"Rolls of money that make the wads of ordinary Wall street financiers blush green for very shame, flashed in the air. Coin was drawn from the pocket, in many cases, including gold pieces of various denominations. Greenbacks and coin were hurled promiscuously into the crowd. Such a scrambling I never saw. When we returned home we counted it that we had expended on our trip between \$25,000 and \$30,000. I am from the East myself, but I wouldn't live here for any amount. It's the West and Goldfield for mine every day."

"You Easterners can't peel out the bills fast enough. Get the habit by living at Goldfield. It's God's own acre, and there is only one Goldfield."

Nobody in this neck of the woods appears to be able to place this monumental liar and colossal faker. Millard, but the general surmise is that he stowed away on the boosters' train as a peanut butcher or something of that sort, and his mind became unhinged from two days' contact with live people that it unsettled his reason.—Reno Reveille.

Mothers with little children need no longer fear croup, colds or whooping cough. Bees Laxative Cough Syrup tastes good. It works off the cold through the bowels, clears the head. Guaranteed. Sold by Tonopah Drug Co.

ORDER OF SALE AND DECREE OF FORECLOSURE AND SALE.

Sheriff's Office, County of Nye, State of Nevada.
M. T. Kane vs. St. Elmo Mining Co., a corporation, Thomas King Muir, John Doe, Richard Roe, James Black and Sarah Green.
Under and by virtue of an order of foreclosure and sale issued out of the Fifth Judicial District, Court of the County of Nye, of the State of Nevada, on the 12th day of October, A. D. 1907, in the above entitled action, wherein M. T. Kane, the above named plaintiff, obtained a judgment and decree of foreclosure and sale against St. Elmo Mining Company, a corporation, Thomas King Muir, John Doe, Richard Roe, James Black and Sarah Green, defendants, on the 12th day of October, A. D. 1907, for the sum of Sixteen Hundred and Twelve and 50/100 Dollars, in gold coin of the United States, besides interest, costs and counsel fees, which said decree was on the 14th day of October, A. D. 1907, recorded in Judgment Book "B" of said Court, at page 487, I am commanded to sell all that certain lot, piece or parcel of land, situate, lying and being in South Manhattan Mining District, County of Nye, State of Nevada, and bounded and described as follows:

"Cortina," "El Capitan," "Capitola," "Mendocino," and "Contact" lode mining claims, situated in South Manhattan Mining District, County of Nye, State of Nevada.
Public notice is hereby given that on Thursday, the 5th day of November, A. D. 1907, at 2 o'clock P. M. of that day in front of the Court House door, of the County of Nye, I will, in obedience to said order of sale and decree of foreclosure and sale, sell the above described property, or so much thereof as may be necessary to raise sufficient money to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for gold coin of the United States.
J. J. OWENS, Sheriff.
By Val Pittman, Deputy Sheriff.
Dated at Tonopah this 15th day of October, A. D. 1907.
Daily—N. 15-23-39.
